The Chairman informed the Meeting that the company's policy on declaration of dividend provided that the company shall pay dividend at the rate of not less than 50% of net profit of the company's separated financial statements after all deductions as required by law or by the company. Nevertheless, such declaration of dividend of the Company is subject to company and its affiliate's cash flow, liquidity, contract's obligations and commitments and future investment plans, including justifications and other future consideration as deemed appropriate. For the year 2014, the Company has earlier declared the interim dividend of Baht 0.07 per one ordinary share equal to the approximate amount of 679.4 Million Baht for operating result from 1 January 2014 to 30 June 2014. The Board of Directors has considered proposing the Meeting for consideration and approval as follows:

- To certify the declaration of interim dividend for the operating result from 1 January 2014 to 30 June 2014 in the amount of Baht 0.07 per share equal to the approximate amount of 679.4 Million Baht.

In addition, the appropriation as legal reserve has been properly reserved.

The Chairman asked the Meeting if any shareholder might have question.

- Shareholder - The sale of non-core assets will be considered for the declaration of dividend or not.
- Chairman - The non-core assets sold will be the operation's result for the next declaration of dividend to the shareholders.
- Shareholder - When do the sale of UM Tower and Million Island finish?
- Chairman - Soon
- Shareholder - If there is the share swap, how is the Company's solution?
- Chairman - Currently, in the period of feasibility study, after that the Company will propose the Board of Directors for consideration which depends on 3 issues;
1. The Company shall be approved from SEC for share swap
 2. The Company shall be approved from Hemaraj's shareholders
 3. The Company shall be approved from WHA's shareholders as well
- Shareholder - The acquisition by WHA is as friendly takeover or not, and How is the benefit of the Company?
- Chairman - This is due to the existing shareholder is old age and desires to retire from their business. Thus, the acquisition by WHA is as friendly takeover and the benefit of Company that there is no more overlap in the business because 2 business are combined that WHA has operated business of Warehouse, Distribution Center and Premium Factory, and the Company also is the number one leader of industrial estates business in Thailand. Furthermore, Khun David (CEO) and Khun Vivat (COO) as the recognized person both in Thailand and abroad which both of them will further lead the Company for the business progress. In addition, the customer's group of WHA who have operated their business in relation to the consumer's good, pharmaceuticals and chemicals, they use the logistics around Bangkok, Bangna-Trad k.m.18-23, Wang Noi, Saraburi, Bang Bua Thong. For the remaining logistics are located at Lam-poon, Khon Kaen , Surat Thani which there will not duplicate of the industrial estates areas of the Company, mainly in the east of Thailand. And the major customers who have operated their business in relation to petrochemicals, automotive and metals, they could trade the customers for each other.
- Shareholder - Assumed that the Company delists from the listed company of SET and there are still the minority shareholdings by minority shareholders, if the minority shareholders wish to sell their shares. How the minority shareholders have to do?
- Chairman - The Company has considered that it's so far to decide for this matter. And we talk about this point; it may be believe that the Company delists from the listed company of SET. However, WHA is the acquisition of more than 85% of Company's shares that affect to the liquidity of Company is lower than 15% which is only an indication that the Company might delist from SET. Furthermore, WHA has many solutions that are the payment of penalty or sale

shares back for providing liquidity in excess of 15% or swap shares. And if the swap share is not occurred, the Company may consider the other 2 options, including the delisting from the listed company in SET. In addition, the Board of Directors of WHA has no concept to take advantage of minority shareholders due to every share is equal value.

- Shareholder
Chairman
- Does WHA take money from any source for the Company's acquisition?
 - WHA has increased its capital for one part and borrowed funds from the Siam Commercial Bank on the other part.

Since there was no question, the Chairman then asked the Meeting to vote in casted vote.

- Resolution

The Company has still thought to be sale the lands on target or not.
- MD - In the first half of this year, we forecasts that we could sell the land for the half of our target because we have a major customer which will close the deal soonest. Other industries such as electronic and household may be substituted target. Therefore, the sale of industrial estates could be growing up; the mentioned factor is a short-term impact of this period. Furthermore, the sale of electricity also generates income relatively stable, with signing the contract of a power plant or SPP projects which is different from the year 1998 that the Company had income from the industrial estates only. After the change of policy, the Company has income revenue from the power plant for a long-term income and to reduce the impact.
